

SHORING UP AUSTRALIA

The O'Sullivan Guarantee

**QUALITY & SAFETY
ASSURANCE**

**EXPERTS IN COMPLEX
PROJECTS**

**PROFESSIONAL DESIGN &
CONSULTATION SERVICES**

FORMING FOUNDATIONS

With over 30 years of experience in civil construction spanning infrastructure, commercial, residential heritage and mixed-use developments, O'Sullivan has built a reputation as one of Australia's leading experts in complex shoring, anchoring, piling and shotcrete solutions.

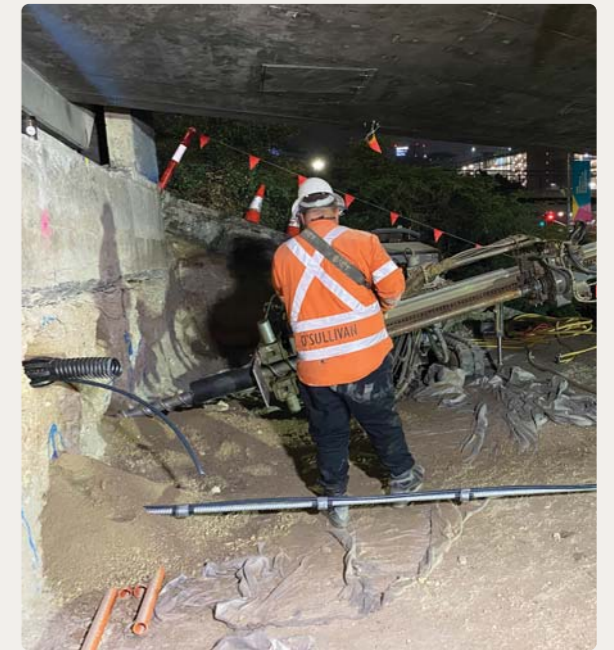

We provide professional design and consultation services right through the life of your project and have a proven track record of providing our clients with cost-effective design solutions, shorter timescales and reduced costs.

OUR SERVICES

O'Sullivan's comprehensive offering provides clients with one point of contact for a wide range of ground engineering services, making complex projects simple.

PILING

Our expert team is engaged in all types of piling works across the country. O'Sullivan ensures the efficient and seamless completion of projects, regardless of their complexity.

Works include:

- Bored Piles
- Soldier Piles
- CFA Piles
- Micro Piling
- Low headroom restricted access projects are a specialty

ANCHORS

Anchoring is a critical structural component of shoring works, requiring meticulous design and installation. At O'Sullivan, every anchor is designed and installed with precision and in full compliance with relevant Australian Standards, ensuring all work is approved by our engineers.

Works include:

- Temporary & Permanent
- Soil Nails & Rock Bolts
- Self-drilling Anchors
- Ground Anchors

SHOTCRETE

Our advanced shotcreting techniques ensure we can apply shotcrete with various finish applications making it ideal for applications such as retaining walls, tunnels, and slope stabilisation. We can provide plain float or trowel finish as well as decorative mock rock finish to suit project and specifiers requirements.

Works include:

- Shotcrete
- Gunite

COMPLEX SHORING AND ASSOCIATED WORKS

Our team specialise in complex shoring and associated works, providing comprehensive solutions for challenging construction projects no matter how narrow or small the space. Our expert team has the experience to handle intricate shoring requirements with precision and efficiency.

Works include:

- Low Headroom
- Tight Access
- Stabilisation
- Ground Injection

INDUSTRY SECTORS

O'Sullivan understands that quality and long-lasting growth starts with a strong foundation, and as one of Australia's leading shoring experts, it is our mission to support our clients in reaching their goals by building the essential foundations for life.

Our on-ground team are experts in their field, delivering on time and within budget, across major infrastructure projects and high-density developments spanning a diverse range of industry sectors.

INFRASTRUCTURE

O'Sullivan boasts extensive expertise in a wide array of critical infrastructure projects for major private enterprises and government bodies. Our portfolio encompasses tunnelling, bridges, roads, slope stabilisation, and mining ventures demonstrating our capability to handle complex and large-scale projects with precision and reliability.

TRANSPORT & RAIL

We leverage our expertise in Civil, Rail, and associated services to cater to a diverse range of clients, including Seymour Whyte, Roadtek, Lend Lease, Delta Group, TfNSW and Brisbane City Council. Our comprehensive solutions ensure the safety, efficiency, and longevity of transportation infrastructures.

TUNNELLING

O'Sullivan is highly experienced in tunnelling, making significant contributions to landmark projects such as the Sydney & Brisbane Metro and multiple mining sector projects. Our advanced tunnelling techniques and solutions are designed to meet the unique challenges of these demanding projects.

EDUCATION

In partnership with our clients, we have facilitated the construction of multiple new and redevelopment of existing primary, secondary and university sector projects. This broad range of projects underscores our commitment to supporting educational infrastructure with robust and innovative shoring solutions.

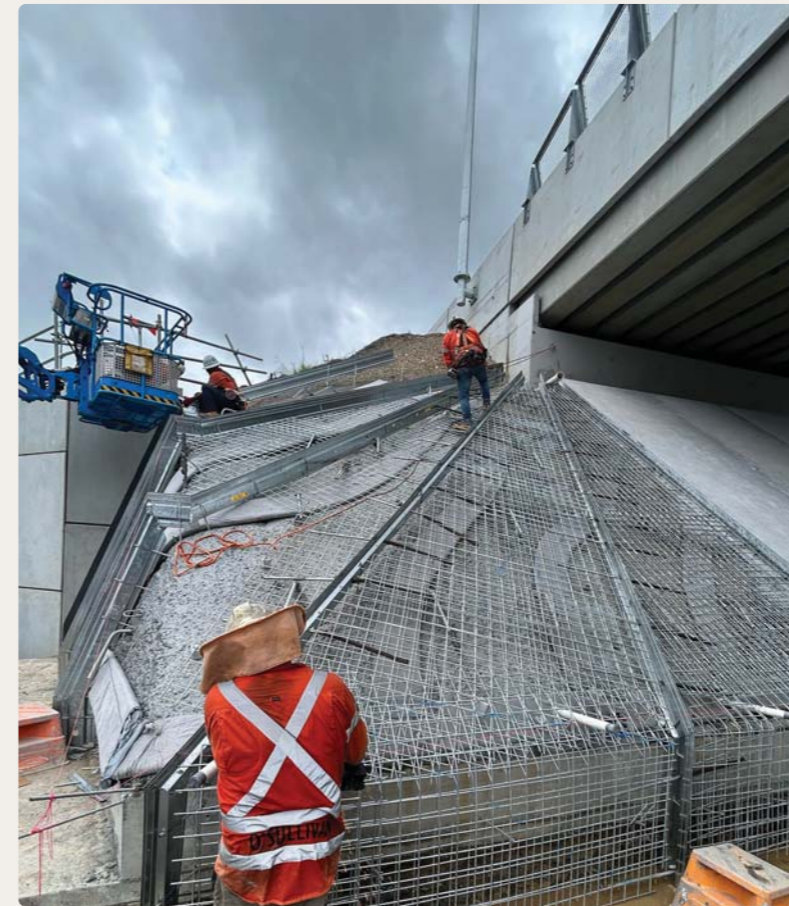

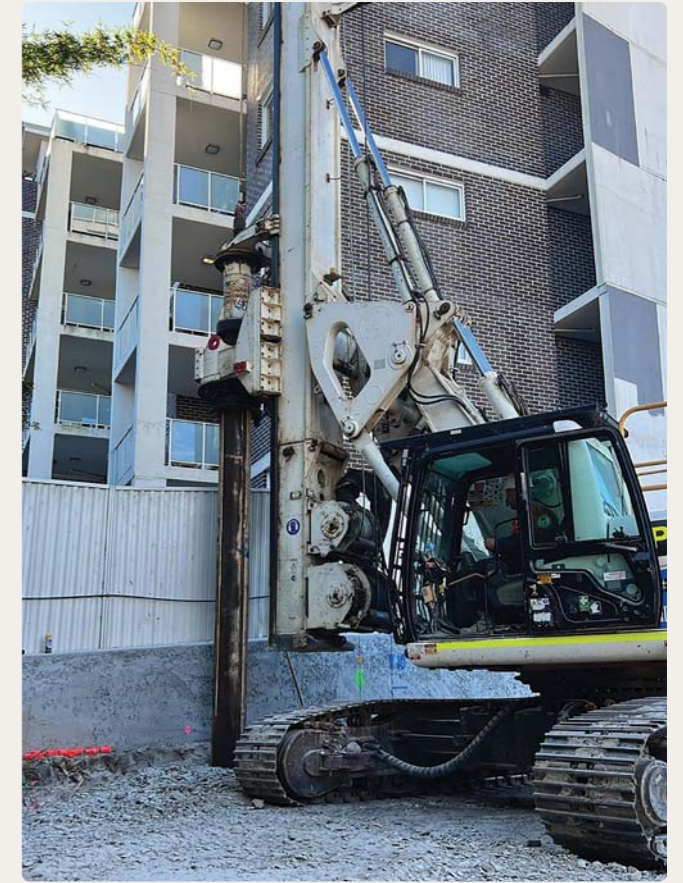

MARINE

We deliver comprehensive solutions for numerous marine projects across Australia's waterways. Our pivotal contributions include work on Fort Denison in Sydney Harbour and the Collaroy Beach seawall on the northern beaches, showcasing our ability to handle the unique challenges posed by marine environments.

RESIDENTIAL, MIXED USE & HERITAGE RENEWAL

O'Sullivan has accumulated considerable expertise in various residential, mixed-use, and heritage projects across the country. Our contributions encompass shotcrete, piling, and anchoring for notable developments across the country. Our involvement in these projects highlights our versatility and commitment to enhancing urban landscapes.

OUR MACHINERY

At O'Sullivan, we're proud to offer our clients access to our large fleet of quality machinery to suit all ground engineering applications. Our range of plant and equipment allow specialisation in low headroom and restricted access projects as well as state-of-the-art equipment which meet the needs of even the most demanding shoring and foundation projects ensuring safety, efficiency, and precision on every site.

OUR PARTNERS

Our business is built on long standing relationships formed through trust, quality and unwavering reliability. For 20+ years, this reputation of integrity in our work has seen O'Sullivan collaborate with some of Australia's most trusted construction brands.
